COURSES FOR MAJOR PREPARATION

Some major preparation courses listed below must be completed prior to transfer. Others are recommended to be completed prior to transfer but may be completed after transfer if necessary. Having more major preparation done before transferring will often shorten the time to graduation. Additional major preparation courses that aren’t listed here may also be taken prior to transfer. Please refer to the major articulation agreements at www.assist.org for a full listing of major preparation courses for each major and for the California community college courses that will satisfy these requirements.
